

50 YEARS **NORTHERN METALIC**

NORTHERN METALIC SALES is a proud independent Canadian company and an integral part of the Side Group. Development of this group of companies began in the Peace Country in the early 1950's and more specifically in Grande Prairie in 1969 with the launch of Northern Metallic Sales – our wholesale distribution business.

Over the course of our 50 year history, our experience in supply chain management, project development and transportation has evolved to reach far beyond our expectations and this region.

Today we boast a group of successful complementary companies based in Grande Prairie, Alberta that involve property and land development, rail reload and transportation, industrial supply, oilfield distribution and finance. Our customers range from multi-nationals to the local farmer. Our industrial base is equally as broad, serving the transportation, construction, forestry, mining, oil and gas, institutional and agricultural sectors.

Our real strength lies in the team we have built and the expertise that the members bring to each project. Our warehouses are modern, our systems are current, and our people are engaged.

IN CELEBRATION OF OUR 50TH ANNIVERSARY YOU WILL SEE ONE-TIME ONLY SALES ITEMS EACH MONTH IN OUR FLYER.

HISTORY
