

Proudly Canadian! – by Nature Western Canadian! -by Design Peace Region Strong! – by Choice...Hands Down!

OUR ROOTS ARE FIRMLY EMBEDDED IN THE WEST.

And, we could not be anymore proud to call the Peace Region our home. There are some very distinct characteristics that make people in this region unique.....deliberate, resourceful, creative, community,these set us apart from multi -nationals and box stores. We live and work in your community. Our families interact with yours. Our children play on the same teams and attend the same schools.

When things get weird, as they appear to be now in Canada both politically and economically...we know that we can rely on one another for support. And, we have relied on this community spirit for over 50 years. We celebrate our proud “regional-ness” and the great people that make up our organization.

At Northern Metalic we take enormous pride in our people, their families, and the contributions that we make in all of the communities where we do business. It is important for us to connect on that level. At the end of the day, it is what makes us unique and different.

Given the choice, please remember the businesses that contribute to your community, your family, your life... they give back and make it better for everyone. We are happy to include Northern Metalic, Baron, Visa, Side Group, and our diverse business base among those that are making life better in our communities...

To you and yours we wish you all the very best at this wondrous time of year. And, we wish you prosperity and good health in year 2020....

From our families to yours...thank you for your business.

CELEBRATE THE SEASON!

WHAT WE OFFER

M18 3 PIECE COMBO KIT

The M18 three-tool combo kit delivers the most advanced 18-Volt cordless cutting, drilling and fastening power tool technology in the industry. This kit features 3 M18 FUEL 18-Volt lithium-ion brushless cordless tools including the ½” hammer drill/driver, ¼” hex impact driver and the sawzall reciprocating saw. These power tools feature the most advanced cordless technology in the industry: a powerstate brushless motor, redlink plus intelligence tool technology, and redlithium battery technology, resulting in longer motor life, longer run time and more power!
