Northern Metallic Sales is a proud independent Canadian company and an integral part of the Side Group. Development of this group of companies began in the Peace Country in the early 1950's and more specifically in Grande Prairie in 1969 with the launch of Northern Metallic Sales - our wholesale distribution business.

Over the course of our 55 year history, our experience in supply chain, management, project development and transportation has evolved to reach far beyond our expectations and this region.

Today we boast a group of successful complementary companies based in Grande Prairie, Alberta that involve property and land development, rail reload and transportation, industrial supply, oilfield distribution and finance. Since our 50th anniversary we have evolved and expanded further.

The success of the group is based on the team we have built and the expertise that the members bring to each project. Our warehouses are modern, our systems are current, and our people are engaged.
