GRAY
TOOLS

The Highest Standard. **Yours.**

The true value of a tool is determined by its user, not the manufacturer. A great tool feels right in your hand, handles your daily demands, and is always there when you need it.

As Canada's only industrial-quality hand tool manufacturer,

we are committed to exceeding your expectations for durability and reliability.

Our mission is to deliver tools of the highest standard, giving tradespeople the confidence to perform and achieve exceptional results.

Save on all in-stock Gray Tools punches, chisels, tool storage, 1/2" & 3/4" drive sockets and attachments.

RESOURCEFUL. RELIABLE. REPUTABLE.

At our company, we believe customers should apply the same scrutiny when choosing a lubricant supplier as we do in selecting the right solutions for their needs. We take the time to understand the nature of each client's business, specific requirements, and challenges. Through detailed discussions, we tailor our resources to meet their needs, seeing this as the first step in building trust.

FLOWLINE RESTRAINT SYSTEM

A rupture in a flowline can unleash immense force, causing pipes to whip uncontrollably and endangering personnel and equipment. An engineered restraint system, using plasma rope, secures temporary piping, preventing excessive movement during a failure. This essential safety measure reduces risk to employees, limits damage, and ensures the reliable operation of oil and gas sites.

WHAT MAKES OUR PRODUCT STAND OUT AMONG THE REST?

- › Professionally Engineered system, certified through regulatory standards
- › Up to 85% lighter than traditional steel wire ropes and chains
- › Half hitch set up that offers streamlined installation
- › Quick and efficient assembly leaving you with less downtime
- › In-house manufacturing and testing facility
- › Low maintenance fees helping you keep project costs down
- › A customized and locally assembled product, made with North American produced material

Sales and rentals available.
